Served with English clotted cream, strawberry jam and lemon curd

Celebratory Champagne Cocktail

⇒ £40 per person ⇒

⇒ Tea & Infusions ⇒

Twinings Deluxe Loose Tea & Infusions. All served with homemade shortbread.

English Breakfast £4.85

A full bodied blend of peak second-flush “broken-grade” Assam tea grown on the banks of the Brahmaputra River in Northern India. Bright coppery infusion, full-bodied liquor with a thick malty flavour.

Earl Grey £4.85

Twinings created this famous blend in 1831 for the then Prime Minister Earl Grey. Whole leaf Chinese Keemun tea from the Anhui Province has lemon peel and bergamot oil added to it. Sweet biscuit notes from the tea combined with delicate citrus flavours.

Darjeeling £4.85

Known as the “champagne of teas” among connoisseurs, the British first planted tea bushes in these Himalayan foothills in the early nineteenth century. This blend brings together the delicate first-flush Darjeeling with their more muscatel siblings, the second-flush Darjeeling. Bright amber liquor, delicate liquor with a floral, muscatel, lingering finish.

Mighty Assam £4.85

The fertile soils of Assam owe much to the mighty Brahmaputra River which flows through the region. This unique terroir creates the thick and malty teas that we have selected for this blend. The best second-flush Assams are combined with a scattering of Safflowers for a decadent finish. A bright coppery infusion, thick and full-bodied with a malty finish.

Nutty Chocolate Assam £4.80

Inspired by tea & chocolate: a match made in heaven. Rich and malty notes from the Assam, chocolate and hazelnuts.

Simply Sencha £4.85

This fanning-grade green tea is manufactured using the Sencha technique where, after withering, the green leaf is exposed to steam, allowing it to de-enzyme and retain a delicate flavour. Brilliantly light, straw-yellow liquor, cleansing with a slightly toasty note and drying finish.

Jasmine Petals & Pearls £4.85

Jasmine teas are produced in Fujian, Jiangsu, Anhui, Hubei, Zhejiang and Sichuan provinces and date back more than 900 years. Jasmine pearls are made by tightly rolling fine, tender, spring green leaves and buds which are then infused with the essence of fresh jasmine blossom. After scenting, the jasmine flowers are removed leaving their delicate aroma on the green tea leaves. Pale green-yellow liquor with a sweet, smooth jasmine flavour.

Emerald Dragon Oolong £4.85

This whole leaf Chinese tea is classified as an Oolong tea. These teas are manufactured by shaking the leaves in bamboo baskets, allowing the tea to partially oxidise. Light, bright, silver-yellow infusion, delicate and creamy flavour with a drying finish.

Pure Chamomile £4.85

Chamomile whole flowers sourced from Eastern Europe. Clear straw-yellow infusion, full-bodied with floral, honey note and soft finish.

Superfruity £4.85

A delicious fruity blend containing flavours of the countryside. Clear scarlet infusion, aromas of forest berries, with a lingering sharp finish.
